# Classic Multi Day

100% of heli skiers agree: one day just isn't enough.

Our classic packages are the foundation of Selkirk Tangiers. Over 35 years of world class heli skiing has been built on this product, and we pride ourselves on the multi day experience we deliver. Due to our streamlined operation and convenient location, multi day heli skiing can be better value than you might expect – and the memories are an investment that will repay time and time again.

Enjoy a home away from home in the cosy Coast Hillcrest Hotel, nestled on a vantage point overlooking beautiful Revelstoke. This is the heart of our operation, and the all-inclusive experience you'll find here builds strong bonds between our

staff and guests. After skiing bottomless powder every day, après in front of an open log fire in the Mountain Guide lounge, relaxing in the spa and open-air hot tub, and group dinners in the Hillcrest dining room, you'll feel like a member of the Selkirk Tangiers family.

**Classic packages are available for three, five, and six days for up to 11 guests per group in the Bell 205 helicopter. Seven day packages are available for full groups.**

## Emma Mains

*"When I think heli skiing, there's a feeling that comes to mind. Words like fireplace, timber-frame, hot tub, après cocktails, and obviously days filled with powder and friends make up its core ingredients. The Hillcrest nails all these things with ease and our Classic guests understand that from the minute they arrive."*

# Small Groups

Enjoy a more personal heli skiing adventure.

Get a taste of the small group experience this winter without committing to a fully private group. Seats are sold on a per person basis, removing the pressure of group organisation and allowing you the flexibility to book a single seat, or multiple seats for friends and family. You'll know you've made the right choice as you gaze over a magnificent alpine range with your intimate group, about to drop into a bottomless powder line to the valley below.

This all-inclusive package is based at the Coast Hillcrest Hotel, home of Selkirk Tangiers Heli Skiing. Whether you're relaxing with old friends or

making new ones; our friendly staff will take care of all the details so you can focus on the skiing, the scenery, and the smile you can't wipe off your face!

**Small Group packages are available for three, four, five, and seven days from January 5 - March 15, for groups of up to 4 guests in the A-Star or 5 guests in the Bell 407 helicopter.**

*"Small Groups packages are the perfect example of listening to what our guests want: an indulgent heli skiing holiday, but not too over the top! Combining skiing from a compact, powerful heli with great food, a welcoming atmosphere and faultless service, it's an easy choice for your winter vacation."*

# Dream Star Packages

Private multi day, designed for flexibility & freedom.

Welcome to the ultimate heli skiing experience! Dream Star packages, based at the Hillcrest Hotel, are fully private and tailored to suit your every need. Customise your heli skiing trip according to your group's desires: choose a full day of fast-paced steeps or opt for a more leisurely pace to take in the incomparable scenery.

There's only one thing better than heli skiing, and that's sharing the experience. We recommend Dream Star packages if you've previously enjoyed large group, multi day packages, and would now prefer to return with a smaller group of friends and family.

Think it can't get any better? STHS can come to you, with package options based out of The Sutton Place Hotel at Revelstoke Mountain Resort, Bighorn Lodge, or other private homes.

**Dream Star packages are available from three to seven days all winter for groups of up to 4 guests in the A-Star or 5 guests in the Bell 407 helicopter. Please enquire about options for multiple groups.**

# Day Star Packages

Private single day heli, perfect for a quick getaway.

Problem: you don't have time for that week-long trip, but you prefer to ski with a small group of friends and family. Solution: Day Star packages based at the Coast Hillcrest Hotel. Your private helicopter awaits!

After takeoff, you set the pace. Ski glaciers, pillow lines, perfectly gladed old-growth forests, or alpine meadows. Search for the perfect run with your personal guide and pilot and find your own "best day ever"!

For a Day Star experience without managing group logistics, consider our Small Group package

options, with individual or multiple seats available from January 5 - March 15. Day Star packages can also be booked from other private locations in Revelstoke, including The Sutton Place Hotel at Revelstoke Mountain Resort and Bighorn Lodge.

*A key strength to our operation is our guiding team whose priority is your safety. Our professional and skilled guides are dedicated to delivering you the best possible ski product on a daily basis. Much goes into planning a day that is appropriate for the weather and snow conditions. At our morning guides' meeting, 125+ years of combined experience is often brought to the table. Detailed, site-specific weather forecasting products, industry-wide avalanche forecasting tools, up to the minute satellite and radar imagery as well as neighbouring operation field reports enable us to make the best possible decisions about where to take you skiing. After the ski day, our evening guides' meeting consolidates all observations, testing and data from the field which helps us prepare for the following day.*

# Ability Guide

There is a misconception that heli skiing is “extreme” or “for experts only”.

On the contrary, heli skiing is possible for any skier/boarder at an intermediate ability level. However, if you don't quite line up with at least our intermediate ability level, it would be a good idea to consider enrolling in a **Cat/Heli Prep day at Revelstoke Mountain Resort** before beginning your heli ski package with Selkirk Tangiers. This program will help you prepare yourself for the type of terrain, conditions, and expectations you can anticipate on your heli ski day.

## Recommended Packages

- Day Star, Powder Excursion
- 2 Day Heli, 3-5 Day Classic, Dream Star, Day Star
- ◇ Powder Adventure, Dream Star, Day Star, 5-7 Day Classic
- ◆ Dream Star, Day Star, Steeps Camp

### Intermediate

*“I can ski any intermediate run with ease. I'm a bit hesitant off groomed trails if conditions are less than perfect. I have a little experience in powder and I can ski comfortably and in control on all types of terrain. I enjoy a full day of skiing, but multiple days in a row might be challenging.”*

### Strong

*“I can ski advanced terrain comfortably and can ski/board at higher speeds in control. I have experience in powder and am keen to learn more. I'm physically fit enough to ski multiple full days.”*

### Advanced

*“I normally ski advanced terrain and I enjoy deep snow. I don't need to be the fastest skier on the mountain, and air time isn't required for my ski day to be a success. I'm fit enough to ski full days as often as possible and I try to get as many as I can.”*

### Expert

*“I can ski anything, fast, from first chair until last call. If there's powder on the mountain, I'll find it and ski it with ease. Deep snow, tree runs, airs and steep terrain are what I'm looking for.”*
